Maurizio Pisati

TStat is pleased to announce this year's Italian Stata Users Group meeting will be held in Rome on the 17th and 18th November 2016. The meeting offers users working in different research areas, a unique opportunity to exchange ideas, experiences and information on user written routines and applications developed in Stata. Stata users interested in contributing to the meeting are encouraged to submit their proposals to the scientific committee. As in previous years, the emphasis will be on:

- the development of new user written commands or procedures currently unavailable in Stata.
- the use of Stata in previously unpublished empirical research. Research adopting commands/methodologies new to Stata 14, are particularly welcome.
- other applications of Stata of general interest, such as data management or teaching with Stata, are also encouraged.

On the second day of the meeting, participants can elect to attend our annual Stata training course (details of which will be published on our internet site in the forthcoming week) which will be taught in English.

SUBMISSION OF ABSTRACTS

Authors, interested in presenting their work, are requested to submit an abstract to the scientific committee in electronic format to statausers@tstat.it by the **10.09.2016**. The author's name, affiliation, and a telephone number should be included in the email. Presentations are "normally" 25 minutes long, followed by 10 minutes of discussion, longer presentations are however, also welcome. In such cases however, it would be appreciated if authors also indicated an estimated presentation time. A preliminary selection will be made by the scientific committee, on the basis of submitted abstracts, by the **20.09.2016**.

The final version of the paper must be submitted to the conference organizer by the **28.10.2016**.
